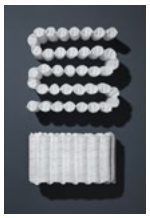
Ventis

GEA

Classic sleep, vegan certified

Designed with a plush comfort. Handmade with tuft and needle, reaching just the right volume and balanced firmness.



Multispring® 1500 core. With more than 1500 pocket springs inside. Adaptability and durability guaranteed.

PLA vegetable fiber (corn), with high thermal performance, able to absorb the body heat. Free of foams and synthetic materials.

Cotton is one of the most breathable and hydrophilic vegetable fabrics. Indicated to avoid excess moisture. Organic cotton from sustainable sources.

Vegan seal. This label guarantees that Ventis model does not contain components with animal origin, considering all the stages production and processing that involved in its elaboration.
